

## Call for Papers

Dear Sir or Madam:

When we hold the 48<sup>th</sup> Intersteno Congress in Paris in 2011, it is also the anniversary for the Intersteno Education Committee. Thus the occasion of this important time, we plan to publish the first essay collection of Education Committee, also the first essay collection of Intersteno. It will be an exchange platform for all members of Intersteno, and will reflect the development of steno education and the new research in each country. We'll print it out and publish it on Intersteno congress every two yeas.

The theme of this essay collection is to talk about steno education in every country. It includes information processing, steno skill (graphic shorthand, steno machine, typing with keyboard and Speech Recognition), word processing, text correction, correspondence and abstract etc. You can mention steno education, training and competitions in your essay, such as development status of steno education in your country, the training method of steno, and the educational outcomes, etc. Of course, it is not that you must talk about these in your essay.

In your essay, there must have the title, the abstract, the author, the author's introduction and the contact method and the main body of your essay (see the example in page two). The format of your essay can be WORD、PDF、OPENOFFICE and RTF. If your essay is written in your own words, please give us an English version at the same time.

For this publication, there will be no author's remuneration for you, but, when it is published, we'll give you two books for free. If you need more, you also can subscribe it.

**The deadline is May 31, 2011.** If you have any questions, please contact with us: Ms Wei Xia ([weixia770@sina.com](mailto:weixia770@sina.com)), Mr. Liao Qing ([liaoqing41@163.com](mailto:liaoqing41@163.com)).

**Chairman of Intersteno Education Committee**

## Introduction

### 1. Steno-translation Overview

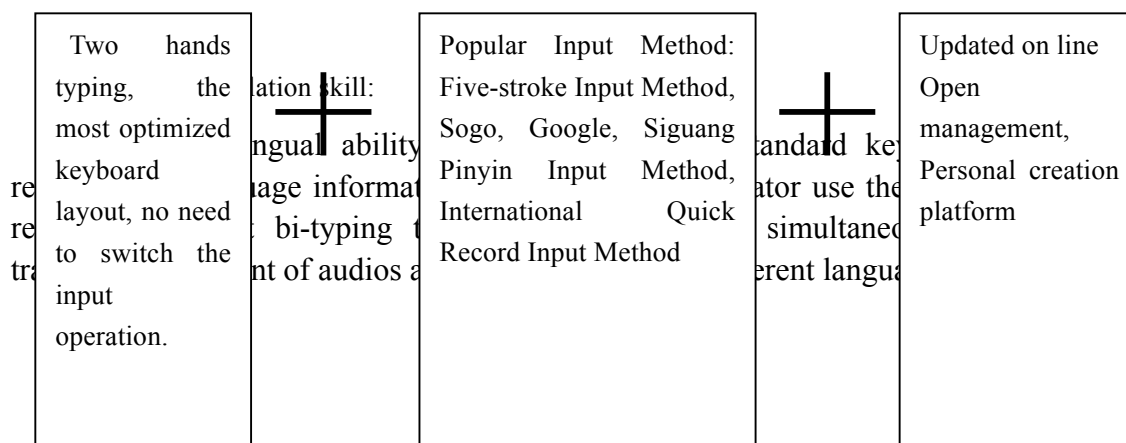

(1) The accurate definition of steno-translation

The traditional method to type one board once across the lines is called typing, while the two-hand and multi-finger simultaneous typing the board to record the audio script is called quick record. Its speed is double of the traditional way. One good quick record system relies not only the intelligent input method, but also on the fastest typing method and modern thesaurus.

**The Quickest Typing  
Thesaurus**

**The Most Popular Input Method**
